

## Letter from the Owner

### **To all of our current and future clients,**

Welcome to the SIS California website. Whether you've arrived here for training or equipment, I think you'll be happy with what you find here.

A bit about whom we are; SIS California is a user-driven business. Our goal is to meet or exceed the expectations of our clients. From Tier 1 instructors to custom designed nylon, we are in business to make sure that the white hats win at the end of the day.

Our instructors; SIS employs instructors from all walks of life; Tier 1 Special Forces operators, SWAT and Narcotics officers, both Military and Law Enforcement Snipers, Intelligence operators from both fields and Field Medics with many years in hostile environments under their belt (Our instructors value their privacy as much as you do, so please don't ask for a resume without an official RFQ). All of our instructors are qualified to instruct on the Federal level, and many are qualified to instruct on State and Local levels.

Our products; SIS California carries a very large selection of tactical based designs, specifically chosen with input from clients involved with keeping us all from harm. While we do carry some lines for the "budget crowd", most of our products are chosen for their robustness and wear resistance. In short, gear you'd be able to deploy with more than once. We also foster relationships with small sew shops that have the flexibility to produce short-run custom equipment.

Our ethics are simple; treat the client with respect. In this business, reputation goes far. With that in mind, we're here to help you, the operator, with your needs. By being the "Go-to" guys, we hope to build our business to the point that we can handle ALL needs in the tactical training and equipment realms.

If you ever have any questions or concerns, I would like to hear from you! I can be reached at [sean@siscalifornia.com](mailto:sean@siscalifornia.com) . Please don't hesitate to drop me a line, even if you'd just like to say "Hi!"

Thank you,

Sean Fetters  
Owner, SIS California
